

## Voice Over Studio

---

Voice over studio page. Since establishing my own voice over studio in 2002, literally, a whole new world of clients has welcomed me. Every day, I record and upload audio files from my voice over studio to clients around the globe with a same-day or next-day turnaround. For years I have worked exclusively in high quality voice over studios here in Houston and around the state. Now, I also have my own state-of-the-art digital voice over studio facility, which I have been continuously upgrading. I enjoy engineering and editing my own recording sessions and have gained an even deeper respect for the other audio engineers I work with -especially for those guys who used to cut and splice yards and yards of magnetic tape.

### Studio Equipment

### Professional Female Voice Talent Melanie Haynes Commercial, Narration, and Character Voice Talent Los Angeles

Melanie Haynes Voice Over Talent and Actress. Melanie has been a professional female voice over talent and actress for over 20 years. She is truly a voice actor—a seasoned, skilled veteran of film, television, and theater who brings versatility and intuition to every session. Her voice is rich, warm, and smooth, and in addition to providing the voice of knowledge and reason, thoughtful motherly advice, friend next door, or business woman, her repertoire includes many comedic characters and dialects. She has voiced literally thousands of radio and television commercials, corporate narrations and training modules along with documentaries, promos, imaging, audiobooks, IVR phone prompts, and on-hold messages.
